QID53: Interest organizations and civil society associations have different views on the role of government in economic matters. Some want government to play an active role in the economy, e.g. through taxation, regulation, government spending or a strong welfare state. Others prefer a reduced economic role for government, e.g. through privatization, lower taxes, less regulation, less government spending, or a leaner welfare state. On a scale of 0 to 10, where '0' is "of no importance" and '10' is "of great importance", how important would you say the role of government in the economy is to your organization in its lobbying and advocacy activities

Some support greater personal freedom, e.g., access to abortion, euthanasia, same-sex marriage, or greater democratic participation (libertarian views).
