

Swedish Interest Group Survey

- When using the dataset, please use the following citation: *Boräng, Frida and Naurin, Daniel (2017). Swedish Interest Group Survey Dataset (Edition: February 2017).*
- The variable "response" can be used to filter out non-responses from the dataset.
- The original Swedish interest group survey includes a large number of questions on interest groups' policy positions on various issues. Since these questions are unique to the Swedish survey, they are not included in the dataset on the CIG survey website. If researchers are interested in using this data they are asked to contact Frida Boräng (frida.borang@pol.gu.se) and Daniel Naurin (daniel.naurin@jus.uio.no).
- Before using the data, please consult the Disclaimer/READ ME file for the Comparative Interest Group Survey Project, found at <http://www.cigsurvey.eu/data/>
